Letter of Recommendation

To Whom It May Concern:

I am writing this letter to acknowledge the service provided by East Suburban Interiors Inc. regarding the quality of work they have provided for Excelsa Health.

We are extremely discerning when it comes to our choice of contractors. I have had the opportunity of working with Mark Mikol for more than ten years on several different Excelsa Health projects, and have seen his strong work ethic firsthand. He and East Suburban's appeal is their ability to listen to the needs of each project, provide integrated design using the input of the team, and come back with effective solution. They have consistently exceeded our overall expectations with regard to schedule, budget and quality. Each project is a unique and challenging one, where Mark and his team at East Suburban stand to face head on and meet with grace and understanding.

It is a pleasure to work with such a professional and cooperative group. I have the utmost respect for East Suburban Interiors Inc. and would highly recommend them for any project forthcoming.

Sincerely,

Scott Koscho  
Vice President of Support Services  
Excelsa Health
